Subject: I love your station! Don't change a thing, please!!

I have recently moved to the Delta and I am working in Clarksdale. I discovered your station a couple of months ago and I think it is the greatest!!! I love the 60's and 70's music. I live in Cleveland and I work in Clarksdale. I know exactly where on Hwy 61 that I can start picking up your station. Some days when I am listening on the way home and an especially good song is on, I listed thru the static until the song goes off. The music you play is hard to find on any other station so please don't change it. I think the last two places I lived changed the format of their music to country. That is the worst! We really do not need another country music station in this area. I also enjoy the weekend American Gold that you play. Please keep the great music going!!

Thank You,

DeVeaux Palmer
